# PRESIDENT'S MESSAGE

Greetings of the day!

Here we are with a new edition of our annual report detailing work done in the year 2021-22. The financial year started with the second wave of the COVID 19 pandemic. The delta variant of the virus was more virulent i.e., it caused severe disease, higher hospitalization rates and more deaths, and spread faster. The health system was overburdened to the verge of breakdown. At all our training centers, attendance was poor. Amidst all the chaos of the pandemic, we needed to keep afloat as well as continue to render service at the grassroots, something that was our strength.

We tweaked our work strategy and started with distribution of essential items like masks, sanitizers, and ration to the needy. We also distributed ration and cooked food to the sick at their doorstep whenever needed. Simultaneously, we kept educating masses about the need to wear a mask, taught them basics of hand washing and social distancing. We held seminars on these issues throughout the second and third waves. When the vaccines for COVID became available, we fought vaccine hesitancy and mobilized people to vaccination centers. We also organized vaccination camps at strategic places where a vaccinator designated by the district immunization officer immunized the people mobilized by us. We ran special campaigns to provide nutritious food to pregnant ladies in need and saw to it that they got their antenatal checkups in time.

Our work towards improving our environment continued unabated. Our volunteers planted numerous saplings and took care of them as well. They also installed bird feeders and waterers at various places for our feathered friends.

In conclusion, I would like to thank all our patrons, donors and volunteers for the excellent work done under difficult circumstances. I look forward to your continued support in times ahead.

Gurcharan Kaur,  
President  
Youth Veerangnayan

## MISSION

The mission of the Youth Veerangnayan is to take a life course approach to equip women and children with knowledge and skills to enable them to be financially independent and contribute to decision-making in the family and society.

## THEME

Youth Veerangnayan strongly believes and prophesizes their theme "Empowering YOU", adding soul in its mission's direction to sustain development and strengthen the society.

# VISION

To provide a platform to women and children where they find the avenues to learn, grow and sustain themselves to face the world with confidence and dignity.

# ABOUT US

The primary aim of the Youth Veerangnayan is to take a life course approach to equip women and children with knowledge and skills to enable them to be financially independent and contribute to decision-making in the family and society. This was meant to be achieved by providing knowledge, education, vocational training, skill development, counseling, and indispensable appliances to the deprived, to enable them to live a dignified life. We run skill development centers in semi-urban areas providing free vocational training for the underprivileged. We also aim at creating awareness amongst people and women in particular, about leading a healthy lifestyle through our communication and demonstrations at the grassroots.

The Youth Veerangnayan is a group of Young (18-40 yrs.) women who crusade against social evils by organizing rallies, seminars, de-addiction camps, etc while aiding women and children. The Volunteers of Youth Veerangnayan mainly comprise a group of talented and experienced doctors, engineers, principals, teachers, and intellectuals, who are experts in their respective fields and are supported by enthusiastic staff who are a breath of freshness in the whole program. With the co-operation of locals and government support functions, we have designed a plan and commit to innovative solutions that drive true change. We take tiny steps but we move with strong determination and take a responsible risk to benefit the maximum number of girls and women.

## OUR INITIATIVES

# SUPPORTING LIVES THROUGH DISTRIBUTION DRIVES

*To those without food, a morsel can be a miracle.*

*To those without clothes in the freezing cold, a blanket could be a godsend.*

*To those without shoes, a pair of slippers could drastically change their lives.*

At Youth Veerangnayan, we realize how distributing a small packet of food could bring a great amount of happiness. And that's the spirit we carry into the regular distribution drives we organize. As a result of our efforts, we saw thousands of smiles.

# WINTER ESSENTIALS DISTRIBUTION

As the spell of winter descended in North India, Youth Veerangnayen sprung into action, distributing winter essentials to those in need. Quilts, sweaters, gloves, jackets, blankets, and shoes, we left no stone unturned in helping those who have to often brave the harsh winters.

A photograph showing four women standing behind a table filled with various household gifts. The gifts include a large electric fan, a blue suitcase, a box of 'MILTON' brand items, a box of 'cello' brand items, and a box of 'Surflame' brand items. A banner in the background reads 'Empowering YOU' and lists social media handles for Youth Veerangnayan. The women are wearing face masks and are dressed in traditional Indian attire. The setting appears to be outdoors in front of a mud-brick building.

## CARRYING ON THE TRADITION OF GIFTING!

The tradition of gifting daughters on their weddings has been followed in India since a very long time. However, due to financial hardships, often many parents are not able to gift their daughters as they wish. That's where we come in. We contribute financially towards a gift of essential items to their daughters to start a new household. Unlike Dowry, these gifts are not given due to demands of the in-laws.

**Youth Veerangnayan** helped three such daughters in Bathinda (Punjab), Radour (Haryana) and Hanumangarh (Rajasthan).

## AIDING THE DISABLED & ELDERLY!

Our Distribution campaigns also included giving a free walker and tricycle to those who need it.

# SWEETS ARE FOR EVERYONE!

Nothing comes close to the smiles we saw after we distributed sweets and toys to little children and women around us.

# SKILL TRAINING TO EMPOWER WOMEN!

Empowered women are the drivers of true change. We aid women in becoming independent by providing them with resources that allow them to earn for themselves. After all, an independent woman is a force to be reckoned with.

Our skill training centers in North India employ experts in beauty and make-up, tailoring to allow women to learn these skills and start their own ventures.

## AN INDEPENDENT TEA SELLER!

The volunteers of Hanumangarh gave her all essentials to start a tea stall. With a little help, her tiny venture started and now she earns upto five hundred rupees selling tea every day. She is very thankful to Youth Veerangnayen.

## COVID-19 RELIEF AND PREVENTION EFFORTS

# RATION DISTRIBUTION DURING COVID-19

The second and third waves of COVID-19 disrupted our lives, our healthcare systems, and our nation in ways we could never imagine. Thousands lost their lives battling the organism and even more were left struggling to afford two square meals. To aid those severely affected by the pandemic, we distributed essentials, such as grains and clothes regularly.

# COVID-19 PREVENTION KITS DISTRIBUTION

In April 2022, the COVID-19 virus gripped more Indians every passing day, and masking and sanitizing became absolutely crucial. In such times, our volunteers ventured out of their homes, masked and protected, to distribute masks, sanitizers, and pulse oximeters among other items, to those who couldn't afford them. We also organized several mask distribution drives to ensure that the streets are safe for everyone.

**#MaskUp because wearing masks saves lives.**

# TACKLING VACCINE HESITANCY AND ORGANISING VACCINATION CAMPS!

When COVID-19 ravaged the world, COVID-19 vaccines came as a messiah. However, not everyone at the grassroots thought likewise. To aid in higher rates of vaccination, Youth Veerangnayan educated the masses on the many benefits of the COVID-19 vaccines. The camps, which we encouraged locals to attend, saw hundreds getting vaccinated.

# WOMEN & CHILD HEALTH PROGRAMMES

We run a series of programmes aimed at promoting better health for women and children alike. Through these initiatives, our major aim is to help more women and child lead healthy and happy lives.

# MENSTRUAL HYGIENE DAY: BREAKING THE TABOO AROUND MENSTRUAL BLEEDING

A majority of Indian women are vulnerable to health diseases due to poor menstrual hygiene. This needs to change for our women to be truly healthy.

Youth Veerangnayan is moving step-by-step to tackle this important issue. Our approach is to distribute sanitary napkins to rural women and educate them about their usage and their significance in preventing illnesses.

# PROVIDING NUTRITIOUS RATIIONS FOR EXPECTING MOTHERS!

The best way to ensure that a child is born healthy is to take care of the pregnant mother. We realize this and therefore our work involves taking a life-cycle approach towards ensuring healthy mothers and healthy children.

As a part of our program to aid soon-to-be mothers, we regularly distribute nutritious supplements and rations to expecting mothers who cannot afford them.

# YOGA FOR BETTER HEALTH!

Adding Yoga to your lives isn't a big change in the schedule, but the benefits it brings are immense. Our team, therefore, organizes yoga camps and practices to keep our health, body and mind healthy.

# CREATING AWARENESS: ONE SEMINAR AT A TIME!

True change is possible only when people, especially women, are made aware of its need. At Youth Veerangnayen, we organize rallies and seminars to ensure that conversations and discussions around change happen in our society. In the last decade, we have conducted thousands of rallies in different cities to create awareness.

# PUTTING UP POSTERS AND ORGANIZING CYCLE RALLIES FOR AWARENESS!

# LET NO CHILD GO UNEDUCATED!

Millions of Indian children are forced out of education due to their circumstances and family situations. With the pandemic shutting down offline schooling, the dropout rates in rural areas sky-rocketed.

Ours has been a small but determined approach towards tackling this problem. We employ experienced teachers in our free coaching centers and help children find their voice and purpose. In addition, we provide them with all study essentials such as books, notebooks and other stationery! In addition, we also organized a career counselling camp in Tohana (Haryana) to educate children about the paths they can take after they finish school!

# PLANTING HOPE FOR THE FUTURE!

With the global temperatures soaring due to increasing greenhouse emissions, tree plantation has become as crucial as any other service to the humankind. Therefore, the Youth Veerangnayen have pledged to plant as many saplings as possible whenever, wherever.

To fulfill this promise to the future generations, we have regularly organized tree plantation drives and will continue to do our bit for the environment.

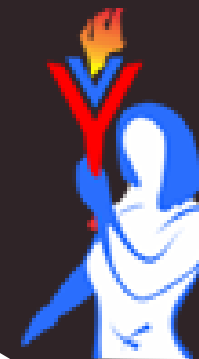

# NURTURING BIRDS

At Youth Veerangnayen, we believe the world becomes a better place if all living beings co-exist peacefully. Therefore, our volunteers install bird-feeders at local parks and in their neighborhoods so that birds can heave a sigh of relief in the sweltering months of summer.

To celebrate Earth Day on April 22, we organized several such drives in different areas.
